

The following charts represent research performed by the Homeless Education Program to investigate trends between Title I funds and assorted factors, including Title I Homeless allocation, free and reduced lunch rates (FNR), and homeless students enrolled in a district. These charts are meant to analyze and discover certain trends between the categories, and also compare New Hampshire to national trends. The data collected represents the 2011-2012 school year.

Due to its status as an extreme outlier, SAU 37 – Manchester has been omitted from the data samples. This allows for clearer, more concise charts with more discernible data. We have also omitted identifying each plot point with specific SAUs in the interests of confidentiality.

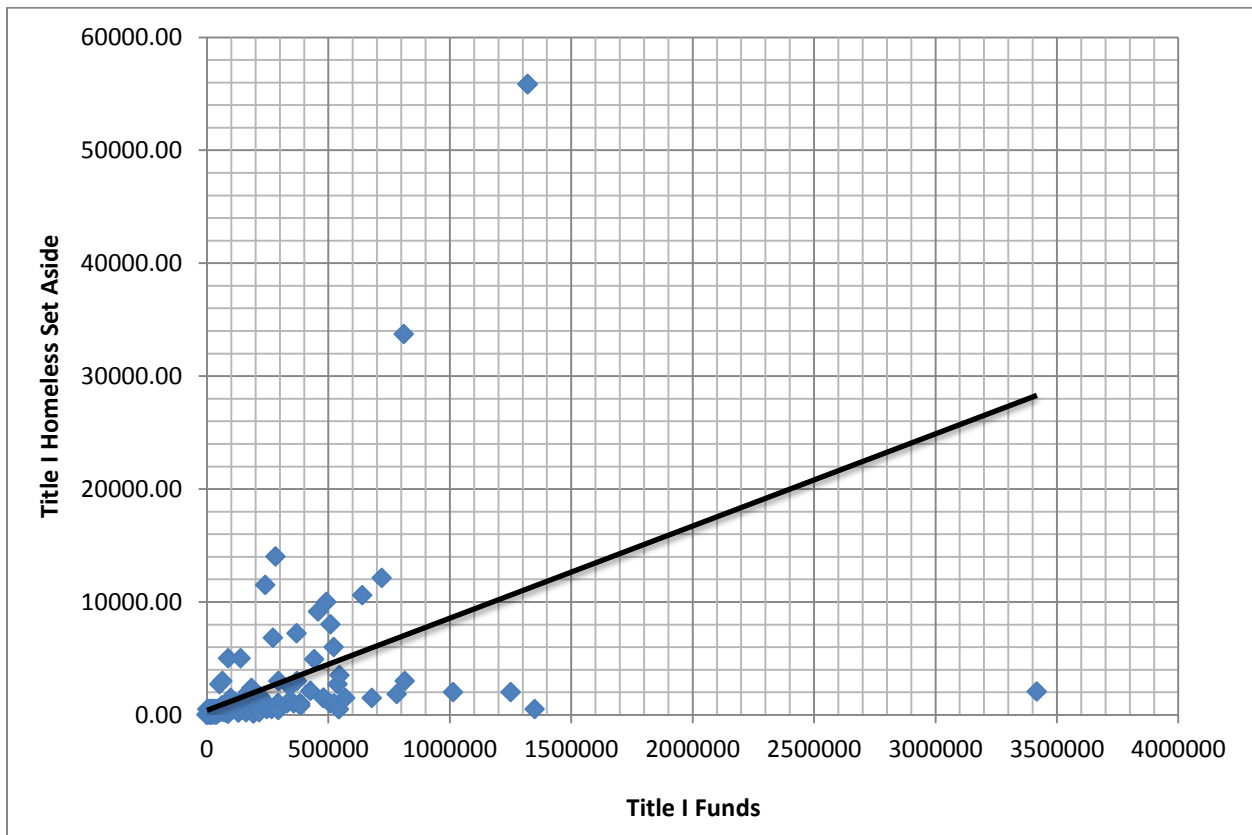

Figure 1 – This chart demonstrates the relationship between funds allocated by Title I and the corresponding Homeless Set Aside amount. Each district is required to set aside a certain amount of funds to support homeless and unaccompanied youth.

For more information, please contact Nick McIntyre at nicholas.mcintyre@doe.nh.gov or 603-271-0448.

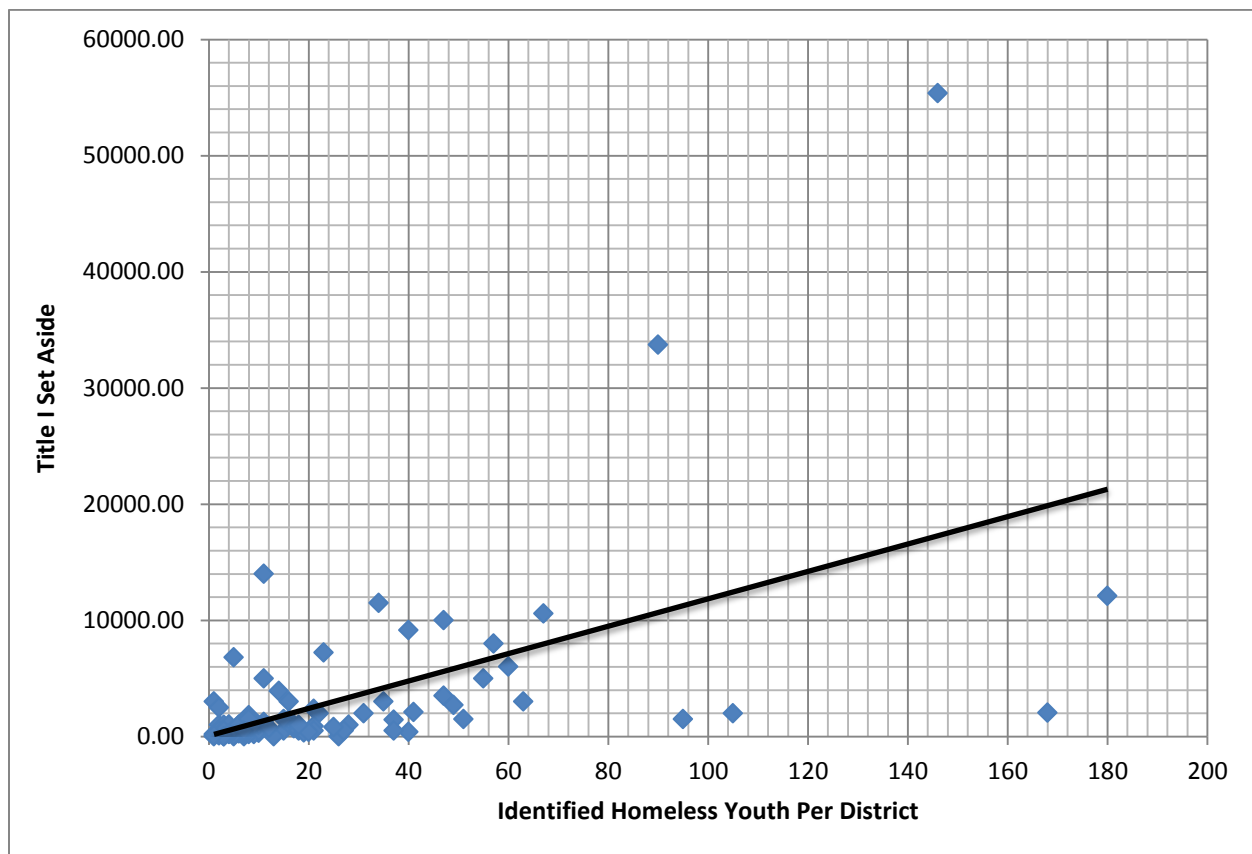

Figure 2 – This chart demonstrates the youth identified as homeless by district versus the amount of Title I funds set aside for homeless youth.

For more information, please contact Nick McIntyre at nicholas.mcintyre@doe.nh.gov or 603-271-0448.

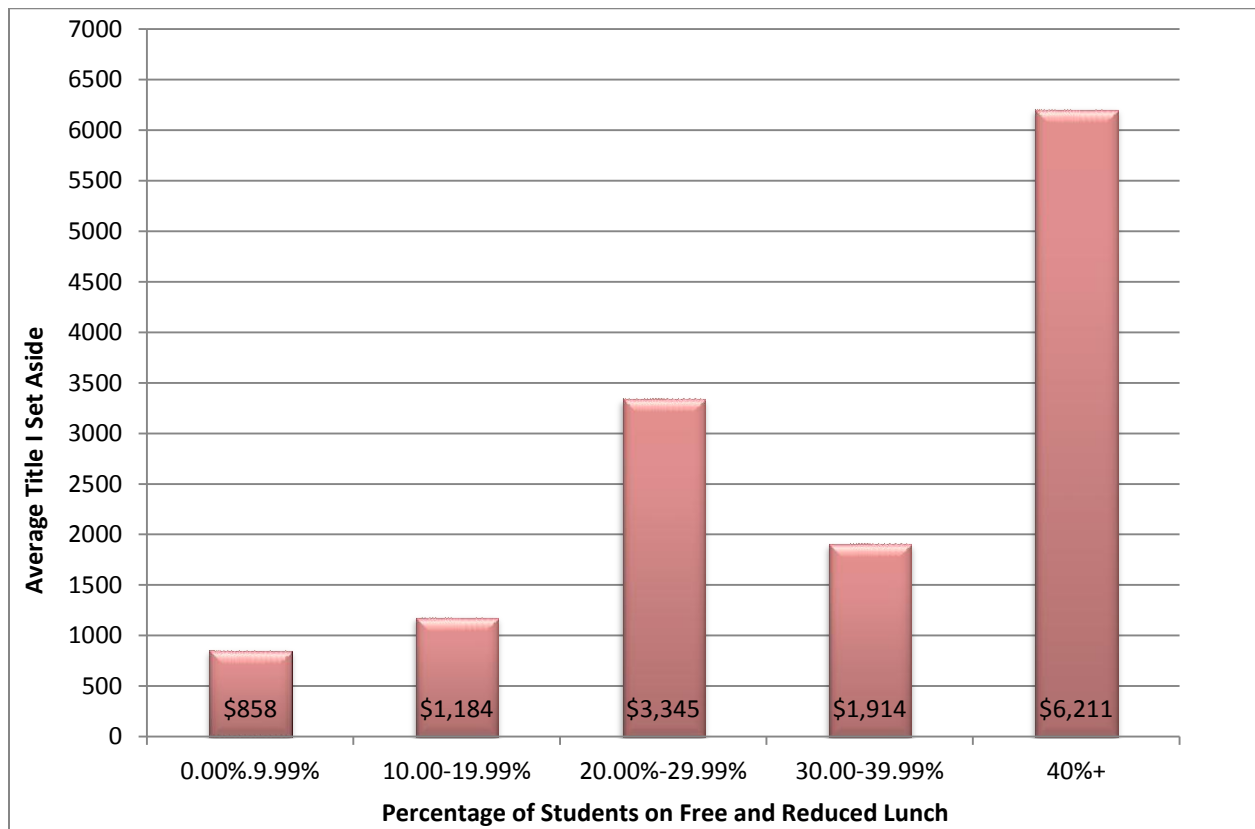

Figure 3 – This chart demonstrates the FNR rate of New Hampshire's SAUs (Grouped in intervals of 10.00%) and the average Title I homeless set aside per group.

For more information, please contact Nick McIntyre at nicholas.mcintyre@doe.nh.gov or 603-271-0448.

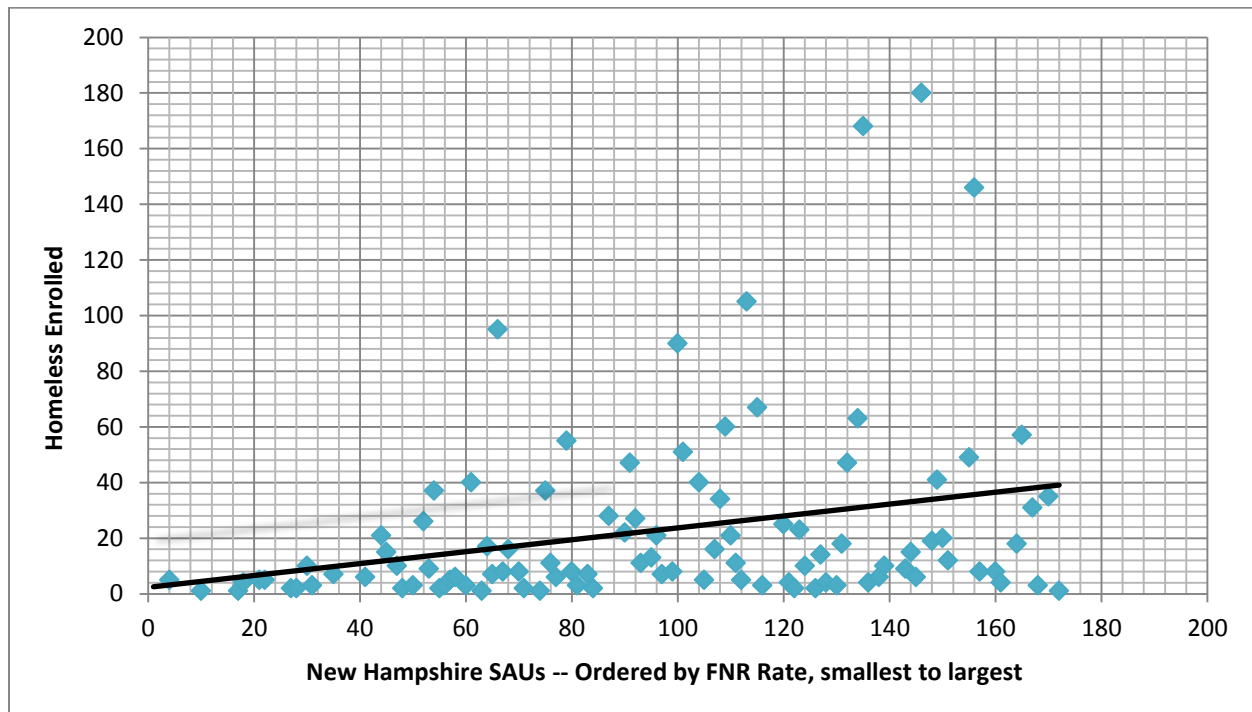

Figure 4 – This chart demonstrates the FNR rate of New Hampshire’s SAUs and the corresponding amount of homeless students identified in each SAU.

For more information, please contact Nick McIntyre at nicholas.mcintyre@doe.nh.gov or 603-271-0448.
